Stewart EFI, LLC Acquires Weeks Precision Tooling Company

Thomaston, CT – October 1, 2010 – Stewart EFI, LLC is pleased to announce the asset acquisition of Weeks Precision, a tooling company based in Thomaston, CT.

Weeks Precision has been a supplier of tooling components and machining services to the Metal Forming Industry for over 20 years and Stewart EFI expects to continue this tradition with hopes for increased sales Nationwide.

This transaction also allows Stewart EFI better support of its continuing growth and needs for increased tooling capabilities and capacity to serve its customer's requirements.

We are pleased to make this announcement and welcome Weeks to our growing organization.

Stewart EFI with over 200 employees also has operations in Thomaston, CT and ranks among the largest suppliers of small precision metal stampings in the world. Its capabilities include deep drawn, progressive die and slide-formed metal stampings, wire forms and automated and secondary assembly as well as metal plating and finishing. The company's primary markets include automotive, electrical, electronics, consumer, industrial, defense and medical. Stewart EFI's products are sold worldwide.

For more information visit our website at www.stewartefi.com or contact John Labas at 860-283-8213 extension 218.
